

Name(s) / Surname(s) Annaluce Costabile

Residence: Naples

Email: materdeivet.neurologia@gmail.com

Citizenship: Italian

Gender: Female

Desired Occupation/ProfessionalField: Veterinarian Doctor , Referent in small animals clinical neurology.

Education and training:

High school diploma in classical studies from the "Gian Battista Vico" State Classical Lyceum in Naples.

On October 4, 2002, he earned a degree in Veterinary Medicine from the Federico II University of Naples with a grade of 110 cum laude, defending an experimental thesis in Radiology Applied to the Nervous System entitled "Epidurography in Dogs and Cats."

Professional Development:

September 2024 – September 2025

Completing a Master's Degree in Small Animal Neurology. Scientific Director: Steven de Decker, President of the British Veterinary Neurology Society.

May 18, 2024

Attended the "Functional Ozone Therapy - Spinal Module" course with supervisor Michele Acanfora, sponsored by 360 Gradi di Formazione, at the Ramada Hotel in Naples.

April 27, 2024

Following the webinar "Oxidative Stress in Biological Systems: The Role of Oxygen-Ozone Therapy," sponsored by the Health's Ozone Society.

March 23, 2024

Following the theoretical and practical course in PRP at the Faculty of Veterinary Medicine in Perugia, sponsored by REGENERA.

November 25-26, 2023

Following the Sinvet course "Degenerative Pathologies of the Nervous System."

November 11, 2023

Following the "Theoretical and Practical Course in Veterinary Ozone Therapy," Scientific Directors Dr. Debora Puddu and Dr. Simone Ventura for 360 degrees.

November 6, 2023

Following the course "Ozone Therapy in Veterinary Clinical Practice," Scientific Director Dr. Simone Ventura.

November 4, 2023

Attended the "PAET and Major Autohemorrhage Course," Scientific Director Dr. Debora Puddu.

2022 – 2023

Attended the annual AIMOV course in "Veterinary Clinical Phytotherapy," including a Module Applied to the Nervous System, Scientific Director Maria Luce Molinari, earning a final certificate.

On April 15, 2023

Attended the SINVET meeting "Infectious Diseases of the Nervous System."

On November 12-13, 2022

Attended the SINVET meeting "Herniated Discs, a Constantly Evolving World."

In 2021/22

Attended the annual Neuroclassroom training course at the San Marco Veterinary Clinic.

In 2019

She joined SINVET, the Italian Society of Veterinary Neurologists, of which she remains a member, receiving annual updates on clinical neurological care.

From May to September 2012

She attended the Basic Course in Zooanthropology Applied to Teaching" organised at SIUA (School of Human-Animal Interaction).

On October 20, 2009

She attended the CME refresher course titled "Updates on TSEs: Diagnosis and Epidemiology" at the Istituto Zooprofilattico Sperimentale Del Mezzogiorno.

On July 8, 2009

She attended the CME refresher course titled "Ordinance of December 18, 2008 and its amendments on the prohibition of the use and possession of poisoned baits and morsels: duties and responsibilities of the veterinarian" held at the IZSM. Zooprofilattico Sperimentale of Portici

From March to May 2007

She attended the "Training Course in Traumatology and Emergency Medicine in Small Animals" also dedicated to neurological patients, at the Local Health Authority "Napoli 2".

On November 18, 2007

She participated in the SMICAV conference on the topic of "Pathologies of the Nervous System Associated with Inflammatory, Infectious, and Parasitic Diseases in Dogs and Cats," held by Professor Gualtiero Gandini.

In November 2007

She attended the eighth and final PERFORMAT course, featuring lectures on "Special Neurology," earning a final certificate of attendance.

On November 5 and 6, 2007

She completed a PERFORMAT practical internship in Neuranatomy and Neuropathology in Pisa, supervised by Professor Carlo Cantile.

On November 18, 2007

She participated in the SMICAV conference on the topic of "Pathologies of the Nervous System Associated with Inflammatory, Infectious, and Parasitic Diseases in Dogs and Cats," held by Professor Gualtiero Gandini.

Since June 2007

She has attended the seventh PERFORMAT course, with lectures on "The Brainstem, Vestibular Syndromes, and Cerebellar Diseases."

In February 2007

She attended the sixth PERFORMAT course, with lectures on "Seizures, Epilepsy, and Other Forebrain Diseases."

In November 2006

She attended the fifth PERFORMAT course, with lectures on "Diseases of the Peripheral Nervous System."

In June 2006

She attended the fourth PERFORMAT course, "Canine and Feline Neurology and Neurosurgery," with lectures on the clinical, diagnostic, and therapeutic approach to spinal cord disorders.

In February 2006

She attended the third PERFORMAT course, "Canine and Feline Neurology and Neurosurgery," with lectures on the clinical, diagnostic, and therapeutic approach to spinal cord disorders. He also performed practical exercises in hemilaminectomy, stabilization, and myelography.

In October 2005

She attended the second PERFORMAT course in "Canine and Feline Neurology and Neurosurgery," with lectures on "Advanced Diagnostics in Veterinary Neurology" at the Department of Veterinary Medicine in Bologna.

Since May 2005

She has been attending the three-year "Canine and Feline Neurology and Neurosurgery Course," organized by the PERFORMAT company.

The course began on June 17, 2005, at the Department of Veterinary Medicine in Bologna.

Veterinary Clinic of Bologna with lectures on "The Neurological Examination and the Neuranatomic Localization of the Lesion."

In November 2006

She attended the fifth PERFORMAT course with lectures on "Diseases of the Nervous System."

In July 2006

She completed her specialization in Pathophysiology of Domestic Animal Reproduction at the Federico II University of Naples with a grade of 48/50, defending an experimental thesis entitled "Mammary Neoplasms in Dogs and Cats."

In January 2004

She was admitted, after passing an entrance exam, to the specialization school in "Pathophysiology of Domestic Animal Reproduction" at the Faculty of Veterinary Medicine at the Federico II University of Naples.

In December 2003

She was admitted, after passing an entrance exam, to the one-year Advanced Training Course in Veterinary Radiology at the Federico II University of Naples, earning a final certificate in December 2004.

She completed **the Licensed to practice** in the second examination **session of 2003**.

On July 11, 2006

She participated in the scientific meeting on "The Basic Management of Brain Aging."

From June to October 2006

She participated in the four-day course organized by the Order of Veterinarians of Naples in collaboration with the Circolo Veterinario Campano, dedicated to clinical neurology, ophthalmology, radiology, and internal medicine.

From January to March 2006

She attended the course in "Clinical Neurology" organized by the Circolo Veterinario Romano and taught by Dr. Corlazzoli, addressing the localization of neuroanatomical lesions in spinal patients, patients with PNS pathology, and subjects with intracranial pathologies, their respective diagnosis and management. Treatment.

From March 1 to April 20, 2005

She attended the course "The Frontiers of Anesthesia in Animals and Humans" organized by the Faculty of Veterinary Medicine of Naples, completing the practical session at the Department of Anesthesia, Resuscitation, and Intensive Care at the Second Polyclinic of Naples.

On November 21, 2004

She participated in the Conference of the Order of Veterinarians of the Province of Naples "Veterinary Emergencies in Small Animals" (ECM-accredited event).

On October 9, 2004

She participated in the Conference organized by the Order of Veterinarians of the Province of Naples "Updates in Veterinary Cytology and Histopathology" (ECM-accredited event No. 281-153589).

Professional Experiences:

On January 13, 2017

She published the following article: "Serum creatine kinase isoenzymes and macroenzymes in dogs with different Neurological Diseases" in Veterinary Clinical Pathology, in collaboration with Professor Saverio Paltrinieri of the Faculty of Veterinary Medicine in Milan.

On August 19, 2013, he opened the "Mater Dei Vet" Multi-Specialty Veterinary Clinic in Naples, which he continues to manage.

On March 11, 2012

She held a conference for the SIUA Association (School of Human-Animal Interaction) on the topic of neurological disabilities in veterinary medicine.

From 2009 to 2010

She wrote neurology articles on the website www.domusvet.it.

In February 2011

She won an "Erasmus for Young Entrepreneurs" scholarship for a three-month period at the companies "Fisiovet and Ortocanis" in Barcelona, Spain, specializing in physiotherapy for patients with neurological injuries and in the Distribution of support for patients with neurological impairments and disabilities.

In March 2011

She completed a theoretical and practical internship at the Department of Neurology of the Faculty of Veterinary Medicine of the Autonomous University of Barcelona (Spain), supervised by Professor Sonia Anor, European Diplomate in Veterinary Neurology and Neurosurgery.

From March to June 2011

She completed a three-month practical internship at the companies "Fisiovet and Ortocanis" in Barcelona, collaborating as a consultant in small animal neurology.

In April 2010

She served as co-supervisor for a thesis in neurology for the Faculty of Veterinary Medicine of the University of Milan, entitled "Creatine kinase isoenzymes in dogs with primary and secondary neurological diseases," in collaboration with Professor Saverio Paltrinieri.

From April to December 2007

She attended the Sannio Veterinary Clinic in Benevento, for theoretical and practical training in general surgery of small animals.

From January to March 2006

She completed a practical internship in clinical neurology and neurosurgery under the supervision of Doctors Corlazzoli and Boccanera at the "Roma Sud" and "Gregorio VII" Veterinary Clinics in Rome.

From October to December 2005

She completed a practical internship in fluid cytology for the diagnosis of nervous system diseases under the supervision of Dr. Tiziana Cocca at the Napolivet clinic.

From February 2004 to October 2007

She collaborated with the Vethospital Manzoni Veterinary Clinic in Naples, specializing in emergency medicine.

From May 2003 to May 2006, he collaborated with the Cavour Veterinary Clinic in Naples, specializing in internal medicine, surgery, and emergency medicine.

In December 2003

She registered with the Register of Veterinarians of the Province of Naples.

In the fall 2001/2002 session

She graduated in Veterinary Medicine from the Federico II University of Naples with a grade of 110 cum laude, defending an experimental thesis in Radiology Applied to the Nervous System entitled "Epidurography in Dogs and Cats."

In the 2000/2001

Academic year, she won a Socrates-Erasmus scholarship for a one-year study period at the Faculty of Veterinary Medicine of the Technical University of Lisbon, whose teaching approach is both practical and theoretical.

In the 1998/1999

Academic year, she served as an intern in the Department of Clinical Medicine at the Faculty of Veterinary Medicine in Naples.

In the 1997/1998 academic year, she served as an intern in the Department of Veterinary Anatomy at the Faculty of Veterinary Medicine in Naples.
